## Experience

### Ambit Energy/Vistra Energy

Software Developer V - Retail Technology

Aug. 2018 to Mar. 2020

- Full Stack Developer working with React/React Native, Net Framework, Microsoft SQL, and numerous front-end frameworks
- Began as contractor, promoted to full-time Software Developer I, then to Software Developer II
- Built mobile app features from scope call to app store release
- Participated in daily scrums, sprint planning, and cross-team collaboration on company-spanning projects affecting millions of users

## Projects

### MyAmbit Mobile

Aug. 2018 to Mar. 2020

- MyAmbit Mobile is the mobile application for Ambit customers
- Built with React Native (with native modules) and .NET
- Contributed all new feature development for 2019 and addressed numerous issues that represented the bulk of user complaints

### Snap and Save

Nov. 2018 to Mar. 2020

- Snap and Save is a new way to sign up with Ambit. Simply take a photo of your bill and receive a text with an offer from Ambit.
- Built Agent View API with .NET and UI with RiotJS
- Developed features for the customer enrollment UI in AngularJS
- Project spanned multiple teams and is patent pending

### DriveFair

Mar. 2020 to Current

- DriveFair is a web and mobile application designed to facilitate restaurants, drivers, and customers with food delivery
- Built with Node, Express, MongoDB, React, and React Native
- Stripe-integrated and ready to take real users and payments
- A solo project brought from idea to MVP-complete in 60 days

## Education

### Lambda School

Jan. 2018 to Aug. 2018

### Computer Science Full Stack Web Development 2018

Lambda School is a Computer Science & Software Engineering Academy that provides an immersive hands-on curriculum with a focus on computer science fundamentals, software engineering, and web development.
